

SEWM2016@STAVANGER

The 2016 instalment of the conference
Strong and
Electroweak Matter
at the University of Stavanger in
collaboration with the NTNU in Trondheim

11.-15. July 2016

Venue: Stavanger

Stavanger in Norway:

- The Stavanger Region has a population of approximately 240.000, within Norway in joint second place with Bergen and Trondheim, after the capital Oslo.
- Over the last 40 years, it has developed into the oil-capital of Norway.
- The University of Stavanger was created in 2004 through the merger of a number of teaching colleges, and was the first of 4 "new" Universities.
- This complements the "old" Universities in Oslo, Bergen, Trondheim and Tromsø.

- Stavanger is connected by direct flights to more than 30 destinations including most major European hubs.
- Stavanger/Sola airport is 10 mins from campus, 15 mins from city center
- Regular bus to/from campus (line 6 and 7). There will be a shuttle service in the mornings for participants.
- Campus about 6 km walk from city center.

Destination, Hub	Flight time	Airline, daily flights
Copenhagen (DK)	1.10	SAS
Amsterdam (NL)	1.25	KLM
Paris (FR)	1.55	SAS
London (UK)	2.00	SAS
Frankfurt (DE)	2.00	Lufthansa

University campus

Universitetet
i Stavanger

University of Stavanger

- 9000 students
- 1000 staff
- Lots of engineers and oil
- Physics and maths
- Arts/social sciences

Universitetet
i Stavanger

Local cost

• Myth and reality:

- Norway is often considered an expensive travel destination.
- This is true, but often exaggerated.
- Hotel prices are comparable to for instance Lausanne (120-100-62 euro/night).
- Restaurant meals start at 20-25 euro.

Alcohol is expensive!
That cannot be helped...

SEWM2016@STAVANGER

Welcome!

Local Organising committee: (currently)

- Anders Tranberg (UiS, co-chair)
- Jens O. Andersen (NTNU, co-chair)
- Andreas Hohenegger (UiS)
- Matti Herranen (UiS/NBI)
- David Weir (UiS)
- Per Amund Amundsen (UiS)
- William Naylor (NTNU)
